GPA IS IMPORTANT

- Every grade you earn counts toward your GPA !
- If your student is currently taking a high school course in middle school, once they enter high school their high school GPA will already exist.
 - *Middle school students who have taken high school courses may receive grade forgiveness if they have earned a grade or the numerical equivalent of a C, D or F. In such cases, the district forgiveness policy must allow the replacement of the grade with a grade or the numerical equivalent of a C or higher, earned subsequently in the same or comparable course. For a grade of A or B, the course and grade cannot be forgiven, will appear on the student's high school transcript, and will be used in the calculation of high school grade point average and for Bright Futures. (1003.428(4)(d), F.S.)*
- Colleges will look at all course selections and transcript grades you have earned in 9th 10th, 11th, and 12th grades.
- Only final grades will appear on your transcript. (no quarter grades)
