

Schoology

24/7

Season 2 Episode 2

Schoology **24/7** is your go to source for anything Schoology, **24** hours a day, **7** days a week. Here you will find updated usage reports, FAQ's of common questions, and tips and tricks for using Schoology in your school/classroom. If you have any questions concerning Schoology, please contact me at

brock.oshell@stjohns.k12.fl.us

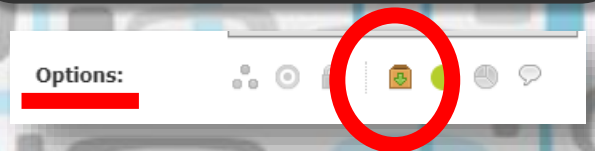

Schoology Tips

Are overdue assignments appearing on your students' dashboard?

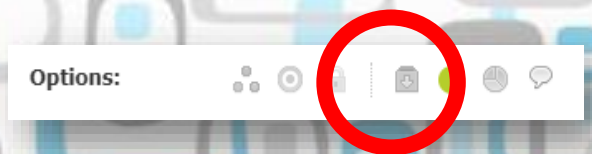

When you create an assignment in Schoology, but have the students complete it with paper/pencil, you must disable submissions. If submissions are enabled, Schoology will automatically remind the students that their assignments are overdue. Disabling submissions is an easy way to eliminate confusion. To edit submissions – create your assignment – in the options tools at the bottom, select enable/disable submissions.

Submissions Enabled

Students will get notifications for due dates and overdue status.

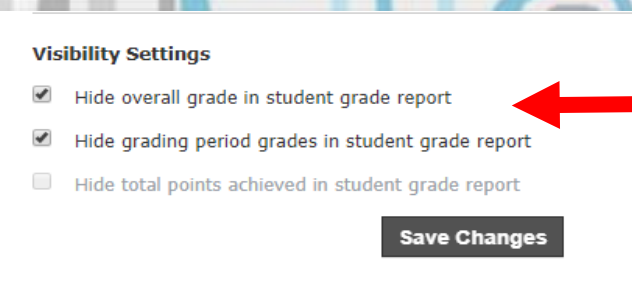

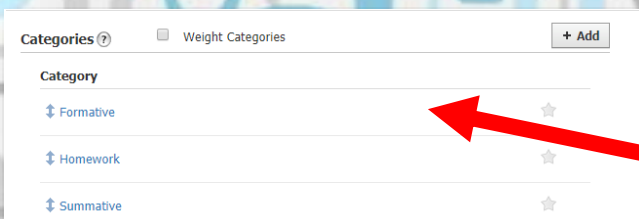

Submissions Disabled
Students will get notification for due dates but will not receive notification for overdue.

eSchool Gradebook

Please remember the following when using Schoology to grade assignments:

1. Make sure that your categories in Schoology match the categories in eSchool.
2. In Grade Setup – make sure to hide **overall grades**.
3. In Grade Setup – make sure to hide **grading period grades**.
